Mike's Phone

While everyone chomped on Gator cupcakes, Mike Lanpher's phone disappeared! Everyone sat mute as wife Joan called its number but no tone was heard.

The mystery continued after everyone left. The staff searched while one server called in every room of the restaurant. Since Mike had been using the phone to take pictures, he assumed it must be there or transported out by accident.

As they left, Joan tried one more time. Someone answered! It was back at the hotel. The clerk said it was turned in by an unknown person.

Mike extends thanks to Mr./Mrs. Unknown and to the attendees that searched or called.
